Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative briefly described their invention with specific regard to independent claim 68 describing two paths for images to take prior to being previewed. One path is direct in the sense that no editing takes place prior to preview. The other has an un-edited (raw) image being manipulated (edited) and then sent to be previewed. Applicant's representative discussed the motivation to combine Cruikshank and Nitta. The Examiner made several suggestions to further clarify the claim language. The Examiner awaits receipt of a formal response from the Applicant.
